iil.shabak@gmail.com · [@shabrashabr](#)

Product designer with 4+ years in fintech, designing complex money-movement flows (KYC, exchange, wallet, staking, cross-chain) across web, iOS, and Android. I own the process end to end – from user research and hypotheses to design QA. I build and scale design systems and work in cross-functional Agile teams alongside PMs, analysts, and engineers. Hands-on research experience with Latin American users. Fluent in HIG and Material Design.

EDUCATION

HSE University · Bachelor's
Communication Design

2019 → 2023

SKILLS

Figma
Figma Prototyping
Lottie
FigJam/Miro
HIG / Material Design
Photoshop
Illustrator

EXPERIENCE

Unigox Middle Product Designer

NOV 2024 → JUN 2025 (8 MONTHS)

- Ran 10 in-depth interviews with users across Latin America, surfaced key barriers and anxieties, and rebuilt the end-to-end app flow around clear goals ("send," "receive," "check"), making core actions faster to find and complete.
- Designed the core interfaces of the P2P platform's iOS app (sign-up, KYC, exchange, wallet) per HIG and delivered interactive prototypes for the MVP.
- Built and rolled out a design system that standardized components and noticeably accelerated the design of new screens.
- Created the brand identity and Lottie animations for web and iOS.
- Worked in a cross-functional team (PM, backend, QA, marketing), contributing to sprint planning and fast iteration cycles.

Clip.Finance Middle Product Designer

MAY 2024 → DEC 2024 (8 MONTHS)

- Designed and maintained the interfaces of a Web3 staking app (web + mobile dashboards): complex financial flows for staking, swap, and cross-chain bridge.
- Redesigned the staking-pool management widgets, simplifying the asset-transfer flow and cutting it to fewer steps.
- Maintained the Figma UI component library, keeping it in sync with front-end engineering.

DIOC Middle UX/UI Designer

AUG 2023 → MAY 2024 (10 MONTHS)

- Designed UX/UI for internal analytics systems for business users: data-dense dashboards, reporting interfaces, and internal tools (B2B use cases).
- Ran regular build reviews and documented component states to keep complex interfaces consistent.

FortWeb Lead UX/UI Designer

JUL 2020 → AUG 2022 (2 YEARS 11 2 MONTHS)

- Led a full website redesign and designed an Android app for topping up / issuing transit cards and paying for parking.

Freelance projects

MAY 2025 → NOW

ONEderWINE [Shopify] – online store for a wine boutique in Munich.
